CV

Felicitas Schwenzer

Felicitas Schwenzer is a 25-year-old education and psychology student who lives in Hamburg, Germany.

In the context of photography she also goes by her artist alias Ophelia. Though always fascinated by this particular art form, she only pursued her first steps in digital photography in 2019. Shortly after Felicitas switched to analogue medium format. It immediately became apparent that this method was the best practice to achieve the artistic expression Felicitas seeks to attain.
